International Baccalaureate Diploma Programme

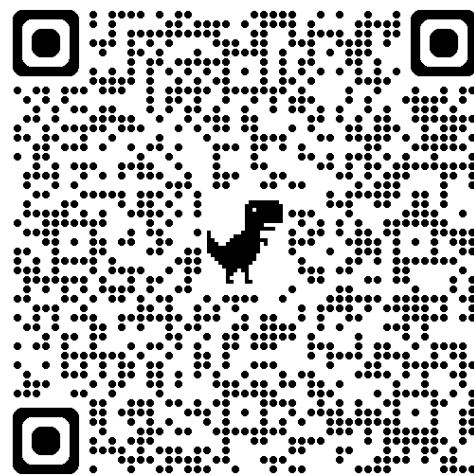

Har du høge ambisjonar og ønskjer ei internasjonal utdanning over to år? International Baccalaureate Diploma Programme er eit krevjande studium for målretta elevar. Undervisningsspråket er engelsk, og det blir stilt høge krav til sjølvstendig arbeid og refleksjon. Til gjengjeld er elevar med IB-diplomet ettertrakta studentar som er ekstra godt førebudd til studiar på norske og internasjonale universitet.

Background Information

For over 30 years Bergen Katedralskole has been successfully offered the International Baccalaureate Diploma Programme. First accredited in 1988 Katten was amongst the first schools to introduce the diploma programme in Norway. The programme is designed to equip students with the academic skills needed for university study, further education and their chosen profession. In addition it aims to develop the values, and lifeskills, needed to live a fulfilled and purposeful life in an ever-changing world.

Since it's introduction we have welcomed local, and International, students through our doors, with student numbers doubling in the last few years.

Deadlines and assessment overview for May 2025 graduates¹

Bergen katedralskole International Baccalaureate Diploma Programme

All courses, along with the Extended Essay and TOK, have at least one major written assignment. These assignments may be assessed internally by the teacher, and moderated by the IB, or they may be marked externally by an IB examiner. In order to help our students balance their workload we spread these assignments across the last 12 months of the programme. Students can expect to have one hand in each week in the last 6 months of the programme, therefore all drafts need to be started in good time before the deadline. We strongly recommend using a planner, either digital or paper, to organize your time. Free periods in school should also be used to work on assignments.

Deadline types

1. **Draft deadlines** are an opportunity for the student to get feedback on their work in progress. Students who receive feedback, and incorporate that feedback into their final product, consistently produce work of a higher quality than those who do not. Failure to submit a draft prior to the deadline will result in no feedback being given by the teacher prior to the final deadline.
2. **Final deadlines** are the day when the teacher expects to have a completed copy of the work for assessment. The versions submitted on this date will be the ones that are sent to the IB.
3. **Extended deadlines** can be given for medical or other documented reasons. They must be agreed in advance with the IBDP Coordinator, and your teacher.

HK-DIR har ny metode for beregning av karakterer for studenter med utenlandsk vitnemål (inkludert IB).

➤ tar utgangspunktet i karakterfordelingen i Norge og sammenligner andre vitnemål ut fra dette.

➤Topp 10-prosentilen i hvert skolesystem skal tilsvare topp 10-prosentilen i det nasjonale norske systemet osv.
